

Emergency Response

Brandenburg®

EMERGENCY RESPONSE

BRANDENBURG PARTICIPATES IN PREPARATION, TRAINING, AND AWARENESS FOR EMERGENCY SITUATIONS. SERVICES INCLUDE CONSULTATION, SPECIALIZED EQUIPMENT, SKILLED LABOR, AND EXPERT STRUCTURAL ENGINEERING.

Brandenburg plays an essential role in emergency response situations and have assisted first-responders on many emergency situations including structural collapses, fires, and disasters. Some of these projects include the crane collapse at Milwaukee's Miller Park Stadium, the parking garage collapse in Atlantic City, the Pilsen fire located in Chicago, and the New York City September 11th disaster.

Some emergency services that Brandenburg can provide include consultation, specialized equipment, skilled labor, and expert structural engineering. The combination of owning specialized equipment and having employees that are experienced in working with compromised structures can prove to be vital when dealing with situations that require rescuing and protecting people.

Brandenburg actively participates in preparation, training, and awareness for emergency situations. Some of our project sites accommodated emergency response agencies for training exercises. Brandenburg has conducted presentations at various first-responder seminars to make them aware of the services our company can provide to assist them in these types of situations.

Brandenburg's dedication to safety is unparalleled. Personnel are trained in all aspects of health and safety including OSHA 1910.120 hazardous waste operations and emergency response training.

Brandenburg is committed to providing a safe work environment for our employees and our customers. We are the first demolition contractor to successfully complete OSHA's Challenge Program and to be certified as a Star Member in OSHA's prestigious Voluntary Protection Program (VPP). Star Member designation is the highest level of recognition. We maintain a staff of fifteen safety professionals with backgrounds in civil engineering, industrial hygiene, mining, manufacturing, pharmaceutical, chemical, refinery, and power generation. Our staff includes a Certified Industrial Hygienist, Industrial Hygienists, Certified Safety Professionals, Certified Health & Safety Technicians, Special Government Employees, OSHA Construction Outreach Trainers, and former OSHA Compliance Officers. Brandenburg promotes safe work practices through the use of a safety-based financial incentive program, intensive and continual worker training, and strict enforcement of the written safety program.
