DEMOLITION | SITE PREPARATION | ENVIRONMENTAL REMEDIATION

About the Company

Brandenburg, established in 1968, is one of the nation's premier demolition firms with a staff in excess of 400 full-time permanent employees. The company provides comprehensive asset retirement services for total plant closure as well as selective demolition designed to enhance the efficiency and profitability of ongoing plant operations. Brandenburg self-performs associated services including environmental assessments, remediation, scrap management, site preparation, electrical and mechanical utility construction and relocation, equipment salvage and rigging.

In the commercial sector, Brandenburg provides demolition services for building owners and the real estate development industry. The company specializes in projects which present challenging operational constraints and has developed a proven track record of completing these projects on time and without incident.

Brandenburg's engineering and estimating staff provides diverse backgrounds and industry-specific knowledge to design and implement exacting operational plans which are responsive to customer needs. The company performs extensive project assessment and planning to develop contract terms and specifications which address the unique requirements of each project.

The company has maintained consistent and strong annual growth by focusing on customer service to develop and deliver engineered solutions for asset retirement. Comprehensive technical expertise in safety, environmental, and utilities operations enables Brandenburg to meet demanding project schedules.

Brandenburg is a total quality management company with ISO 9001 certification.

Brandenburg is committed to providing a safe work environment for our employees and our customers. We are the first demolition contractor to successfully complete OSHA's Challenge Program and to be certified as a Star Member in OSHA's prestigious Voluntary Protection Program (VPP).

Mine Industry

Brandenburg is the premier provider of turnkey demolition, decommissioning, and environmental remediation services for the mining industry.

We specialize in the demolition of large heavy-steel structures and have been the preferred provider of these services throughout the United States. These include the 7000-acre BHP Copper Mine in San Manuel, Arizona, five ASARCO Arizona mines, the 600-acre

U.S. Steel Southworks plant in Chicago, and Bethlehem Steel's 1800-acre main plant in Bethlehem, Pennsylvania, one of the nation's largest Brownfield sites.

Our state-of-the-art equipment includes 50 gondola railroad cars designed and fabricated by Brandenburg. These cars are specially designed to transport valuable scrap metal from remote areas to competitive markets.

Brandenburg's dedication to safety is unparalleled. We are the first demolition contractor to successfully complete OSHA's Challenge Program and the first to become members of the International Society of Mine Safety Professionals. All Brandenburg employees receive OSHA and/or MSHA Part 48 training.

Brandenburg is committed to providing a safe work environment for our employees and our customers.
